GUIDELINES ON APPLICATION TO STRIKE OFF THE NAME OF A COMPANY

1. Introduction

Section 308 of the Companies Act 1965 provides a procedure for a company to be dissolved without having to undertake the formal process of winding up. It may be affected when the Registrar exercises his power under Section 308(1) to strike a defunct company off the register and under Section 308(3) where the Registrar strikes off a company that has been wound up.

2. Scope of Guidelines under Section 308 (1) of Companies Act 1965

2.1 Under this Section, the Registrar may exercise his discretionary power to strike the name of a defunct company off the register if he has reasonable cause to believe that:

- i) a company is not carrying on business; or
- ii) a company is not in operation.

2.2 In determining whether a company is not carrying on business or is not in operation, the Registrar may form his opinion based on the following:

- i) information in records of the company under the Registrar's custody; and
- ii) through application made to him by a director or a shareholder requesting him to exercise his discretionary power.

3. Requirements for an application pursuant to Section 308(1)

In proceeding with the exercise and in forming his opinion based on paragraph 2.2 above, the Registrar will have to be satisfied that the application fulfills the following requirements:

3.1 The directors must obtain the resolution of the shareholders for the initiation of the application to strike off the name of the company from the register on the basis that the company is not carrying on business or the company is not in operation

The resolution must be enclosed together with the application to reflect the consent of the majority shareholders in respect of the striking off application.

Where a director or shareholder is **untraceable** - The remaining director or the shareholder concerned may still submit an application for striking off provided the remaining director or shareholder concerned must have made attempts to trace the where about of the other directors or shareholders by writing to him at the residential address as stated in the Registrar's records or any other records. These attempts must be made by way of registered post. Where the notification from the postal agency is being relied on as proof, this should be submitted as an attachment to the application. Proof of any other modes of attempt (if any) must also be attached to the application.

3.2 The company has no assets and liabilities at the time when the application is made

The Registrar will examine the management accounts certified as true and correct by a Director. However, the Registrar reserves the right to require the applicant to submit audited financial statements.

If the company has not commenced operation, the applicant must inform the Registrar of the following:

- a) The company was incorporated on (date) and there has been no transaction since then; and
- b) The company has not opened a bank account or if there is an account, the latest bank statement is to be attached and to inform SSM about the closure of the account.

3.3 The company has no outstanding charges in the Register of Charges

In respect of charges, the applicant must ensure that the company has no outstanding charges in the Register of Charges kept at the Registrar of Companies.

3.4 The company has no outstanding penalties or offer of compounds under the Companies Act 1965

The company must ensure that all such liabilities are settled before an application for striking off is made.

3.5 The company has no outstanding tax or other liabilities with any government department or agency

Where a company has commenced operation, it must settle all outstanding tax and obtain a tax clearance prior to the filing of the application for striking off.

3.6 The information of the company with the Registrar is up to date

The particulars of directors of the company and any other information as the Registrar deems fit must be the same as in our records. If there are any differences or changes in respect of the information of the directors of the company, the company must first ensure that the Registrar's records are updated before an application for striking off is made.

(Applicant may check the records by getting a print-out from the nearest SSM office or through e-info service).

3.7 The company is not involved in any legal proceeding within or outside Malaysia

The company should not make any application for striking off if it is aware that there is an impending court action against it so as not to deprive others, who have initiated court action against the company, from proceeding with the court action.

3.8 The company has not made any return of capital to the shareholders

The right procedure for any return of capital to the shareholders should be through the process of winding up or capital reduction exercise or any scheme of arrangement or reconstruction exercise.

3.9 The company is not a holding company or a subsidiary of another corporate body

The duty lies on the holding company to take necessary steps to wind-up its subsidiary company.

3.10 The company is not a “Guarantor Corporation”

A “Guarantor Corporation” means a corporation that has guaranteed or has agreed to guarantee the repayment of any money received or to be received by any third party.

4. Scope of Guidelines under Section 308 (3) of Companies Act 1965

4.1 For the purpose of section 308 (3) of the Companies Act 1965, the Registrar may strike off a company that has been wound up where the Registrar has reasonable cause to believe that:

- (a) no liquidator is acting;
- (b) the affairs of the company are fully wound up and for a period of six (6) months the liquidator has been in default in lodging any return required to be made by him; or
- (c) the affairs of the company have been fully wound up under Section 217 of the Companies Act (Part X, Division 2) and there are no assets or the assets available are not sufficient to pay the costs of obtaining an order of the Court dissolving the company.

4.2 Instances Where No Liquidator Is Acting

The Registrar may exercise his discretion to strike off a wound up company if he has reasonable cause to believe that there is no liquidator is acting in the following circumstances:

- (a) The appointment of a liquidator is provided under the order of winding up. However, the appointed liquidator failed or refused to lodge the Notice of Appointment pursuant to Section 280 of the Companies Act 1965 with the Registrar;
- (b) Upon the death of the liquidator and no substitution;
- (c) The Liquidator has been appointed but he did not or failed or refused to carry out his duties as a liquidator;
- (d) Any other reasons that the Registrar may reasonably deem fit to exercise his discretion.

5. Requirements for an application pursuant to Section 308 (3)

Under sub-paragraphs (b) and (c) as referred to in paragraph 4.1 above i.e. where there is a liquidator acting, the Registrar may exercise his power on his own accord and may also consider invoking such power pursuant to applications initiated by the liquidator of the company. On application by the liquidator, the Registrar will have to be satisfied that the liquidator fulfills the following requirements:

5.1 The affairs of the company remain unchanged for a period of six (6) months or longer

The affairs of the company must remain unchanged for six (6) months or longer. This is evidenced from the no change in the status of the affairs of the company as shown in Form 75 which has been lodged by the Liquidator every six (6) months after the order of winding up has been granted.

5.2 The affairs of the company have been fully wound up and there are no assets available

The company must have no tangible assets or the assets available in the company are not sufficient to pay the costs of obtaining an order of the Court to dissolve the company.

5.3 The company must not have any asset which needs to be administered by the Liquidator prior to the making of the application

The Liquidator must prepare a Statement by Liquidator (Appendix 3) stating that he had completed his assignment and that there is no asset under his control.

5.4 The company must not have any outstanding penalties or offer of compounds under the Companies Act 1965

The Liquidator must ensure that all liabilities involving the estate of the company have been fully settled prior to the lodgment of the application for striking off with the Registrar. This fact must be stated in his/her Statement.

5.5 All outstanding tax liabilities (if any) with the Inland Revenue Board incurred by the Liquidator in administering the company's estate must have be fully settled

The Liquidator must ensure that all such liabilities are settled before an application for striking off is made. This fact must be stated in his/her Statement.

5.6 All indebtedness to other Government departments and agencies incurred by the Liquidator in administering the company's estate must be fully settled

This indebtedness excludes liabilities incurred by the company before it is wound-up. The Liquidator must ensure that all such liabilities are settled before an application for striking off is made. This fact must be stated in his/her Statement.
