INTRODUCTION

1. This industry guide is prepared to assist businesses in understanding matters with regards to GST treatment on Duty Free Shop (DFS).

Overview of Goods and Services Tax (GST)

2. Goods and Services Tax (GST) is a multi-stage tax on domestic consumption. GST is charged on all taxable supplies of goods and services in Malaysia except those specifically exempted. GST is also charged on importation of goods and services into Malaysia.

3. Payment of tax is made in stages by the intermediaries in the production and distribution process. Although the tax would be paid throughout the production and distribution chain, only the value added at each stage is taxed thus avoiding double taxation.

4. In Malaysia, a person who is registered under the Goods and Services Tax Act 2014 is known as a “registered person”. A registered person is required to charge GST (output tax) on his taxable supply of goods and services made to his customers. He is allowed to claim back any GST incurred on his purchases (input tax) which are inputs to his business. Therefore, the tax itself is not a cost to the intermediaries and does not appear as an expense item in their financial statements.

GENERAL OPERATIONS OF THE INDUSTRY

5. Duty Free Shop (DFS) in Malaysia is licensed under Section 65D of Customs Act 1967. DFS typically operates at international airports, seaports, downtown and at borders. DFS is set up for the purpose of promoting the tourism industry in Malaysia, especially to foreign tourists. Foreign tourists as well as eligible local tourists are able to purchase goods free of duty and GST at any DFS.

TYPES OF DUTY FREE SHOP

6. Basically, there are several types of DFS operating in Malaysia, as follows:

(a) DFS Located at Airports

They are normally located at the “air side” of the airport terminal building. They are meant to cater for plane crew and air passengers.

(b) DFS Located at Seaports

Like at the airports, there are DFS at the various seaports in Malaysia, for example at Port Klang, Port of Tanjung Pelepas, Pasir Gudang Ferry Terminal, Tanjung Belungkor Ferry Terminal located in Johor Bahru.

(c) DFS Located at Borders

These are DFS located at certain border checkpoints, like Padang Besar and Bukit Kayu Hitam, to supply duty free goods to tourists.

(d) DFS Located Within The Country

There are also DFS within the country, like Rantau Panjang and Pengkalan Kubor located within Principal Customs Area but situated near Customs checkpoints.

GOODS THAT CAN BE SUPPLIED IN A DFS FREE OF DUTY AND GST

7. Under the Customs Act 1967 and Customs Regulations 1977, not all goods are allowed to be sold free of duty in a DFS. In other words, only certain categories of goods are allowed to be sold or supplied free of duty. Those goods that are allowed to be sold free of duty include the following:

9. The above mentioned goods (in paragraph 8) were not subject to any duty or sales tax previously. However, these goods are now subject to GST at standard rate. Hence, to facilitate the industry and for the DFS operators' to be given relief under Item 3, Second Schedule of Goods and Service Tax (Relief) Order 2014, the following should be followed:
